SCHEDULE "C" PROJECT

The objectives of this project are to enhance radio communications for first responders and emergency management personnel during response to emergencies and potential emergencies, provide a real time recording for fire department response and actions, and will provide a mechanism for first responders to communicate within their own organizations as well as collaboratively through the emergency operations center. This project consists of 3 parts. 1. Install a dispatch and voice logging system for Bonfield's Fire Department radio communications. 2. Establish a radio base station for each of public works and the Fire Department in Bonfield's emergency operations center. 3. Augment and replace end of life portable radios for both public works and fire department with capability to upgrading to digital performance in the future.

The Bonfield Fire Department responds to all emergency events in Bonfield. These range from medical response, house fires, wildland fires, severe weather events, roadway and railway accidents, power failures where infrastructure is or can be affected and more. Communications is one of the critical abilities and requirements in responding to any emergency. In the event of a sustained response to an emergency, the emergency operations center will be activated and provide critical coordination and support to first responders. Additionally Bonfield Public Works will provide operations and logistical support. It is critical that all elements for the emergency management efforts and first responders are capable of and equipped with reliable and consistent communications.

Nicky Kunkel Township of Bonfield 365 Hwy 531 Bonfield ON P0H 1E0

Dear Nicky,

In January 2025, the District of Nipissing Social Services Administration Board passed the 2025 budget which includes an overall increase in the levy of \$694,196 year over year. Using the 2024 Property Assessment Rolls and the 2024 tax ratios of the Municipalities in our district, the levy is apportioned amongst the Municipalities using a weighted assessment.

Please find enclosed the worksheet showing the calculation of the apportionment of the municipal share of the 2025 Budget amongst the Municipalities in the District of Nipissing and Territories Without Municipal Organization (TWOMO). Also included is the calculation showing the adjusted invoice amount for March 2025, and the amount to be invoiced monthly for the balance of the year to December 31, 2025.

Should you have any questions regarding this calculation, please do not hesitate to contact me directly. I can be reached at (705) 474 - 2151 ext. 63350, or at justin.avery@dnssab.ca

Yours truly,

Council of The Township of Bonfield

Dear Andrée Gagné, Deputy Clerk-Treasurer and Members of Council,

Thank you for sharing your concerns regarding the Municipal Property Assessment Corporation's (MPAC) 2025 levy increase. We value your feedback and the opportunity to provide some additional clarification.

We understand the challenges municipalities face, particularly in balancing financial obligations while delivering essential services. MPAC's 2025 budget and the associated levy increase are part of our long-term strategy to address fiscal challenges, ensure predictable levy impacts, and enhance the services provided to municipalities like the Township of Bonfield.

For 2025, Bonfield's levy will increase by 3.03%, amounting to \$26.68 per property - \$0.65 more than in 2024. The MPAC levy calculation is legislated under the MPAC Act, and I've reattached the breakdown for your municipality for transparency.

MPAC is investing in modernizing our assessment system to enhance data accuracy and accessibility. Additionally, we are working to provide expanded access to Electronic Assessment Information (EAI) files in 2025 to further support informed decision-making for municipalities.

While MPAC is no longer responsible for providing enumeration services for the creation of the Preliminary List of Electors (PLE), the corporation continues to collect and maintain school support information to ensure Elections Ontario receives accurate and up-to-date data. All costs specifically associated with PLE activities were excluded from the budget. Enumeration services represented a relatively small part of MPAC's overall operations. Our primary focus remains on delivering comprehensive and reliable property assessments, which are central to our mandate.

I can assure you that we are dedicated to finding efficiencies, using reserves strategically, and aligning our budget with municipal priorities. These investments will deliver long-term benefits and reinforce our value to municipalities across Ontario.

Thank you for your continued partnership. Please feel free to contact us with any further questions.

Sincerely, Mary Meffe

To Whom it May Concern,

Re: Proposed U.S. tariffs on Canadian Goods

Please note at their Regular meeting held on February 5, 2025, Peterborough County Council passed the following resolution:

Resolution No. 19-2025

Moved by Deputy Warden Senis Seconded by Warden Clark

Whereas the federal government is currently in negotiations with the U.S. government on their proposed 25% tariffs on Canadian goods exported to the U.S.; and

Whereas Premier Doug Ford has outlined several plans to combat the impact the proposed tariffs would have on Ontario including Fortress Am-Can which focus on strengthening trade between Ontario and the U.S. while bringing good jobs back home for workers on both sides of the border; and

Whereas the federal government has also outlined several ways to address the current relationship with the U.S. including establishing the Council on Canada-U.S. relations to support the federal government as it negotiates with the U.S on tariffs; and

Whereas trade between Ontario and the United States is very important to our residents and local economies and requires all levels of government to work together in the best interest of those residents; and

Whereas according to data from the Association of Municipalities of Ontario, across Ontario municipalities are expected to spend between \$250 and \$290 billion on infrastructure in the next 10 years; and

Whereas municipalities have traditionally treated all procurements from trade partners equally and fairly; and

Whereas municipalities can assist in the Team Canada effort to combat tariffs and support businesses in our procurement for capital and infrastructure programs; and

Whereas there are trade barriers between Canadian provinces.

Therefore, be it resolved that, the County of Peterborough supports the provincial and federal governments on the measures they have put in place in response to the proposed U.S. tariffs on Canadian goods and ask that they take any and all measures to protect the interests of Ontario in any upcoming trade negotiations;

And that federal and provincial governments remove any impediments to municipalities preferring Canadian companies and services for capital projects and other supplies;

And that the provincial and federal governments take action to remove trade barriers between provinces as a response to US tariffs and support Canadian businesses.

And that the CAO be directed to bring back a report detailing a temporary purchasing policy that integrates and addresses these concerns;

And that County Economic Development & Tourism Division be directed to implement a "Buy Local Peterborough County, Buy Canadian" campaign to encourage residents and businesses to purchase locally made and Canadian goods and services.

Be it further resolved, that copies of this motion be sent to:

- The Right Hon. Justin Trudeau, Prime Minister of Canada
- The Hon. Doug Ford, Premier of Ontario
- The Hon. Melanie Joly, Minister of Foreign Affairs
- The Hon. Vic Fedeli, Minister of Economic Development, Job Creation and Trade

BY EMAIL AND MAIL

January 16, 2025

Nancy Paquette, Mayor Township of Bonfield 365 Hwy 531 Bonfield, ON P0H 1E0

Dear Nancy Paquette:

RE: Industrial Inquiry Commission Reviewing Canada Post

As you may know, the Canada Industrial Relations Board, as instructed by the Minister of Labour, Steven MacKinnon, ordered the resumption of mail service at Canada Post on December 17, 2024, under Section 107 of the Canada Labour Code. What many do not know is that under Section 108, he also created an Industrial Inquiry Commission led by William Kaplan that will work with CUPW and Canada Post to examine the future of the public post office with a very broad scope.

The Commission has been tasked with reviewing the obstacles to negotiated collective agreements, as well as making recommendations about the future structure of Canada Post. The Commission has until May 15, 2025, to submit its final report to the government.

While time is extremely short, the good news is that there is an opportunity for you to make a submission as part of the Commission's public review. CUPW would like to ensure that the views of municipalities are considered. Therefore, if at all possible, we would like you to provide input to the Commission.

During the last public review on the mandate of Canada Post in 2016, the active engagement of municipalities was critical in the decision to maintain door-to-door delivery and immediately stop the further rollout of community mailboxes. However, there is nothing to stop the Commission from making recommendations to bring that back or to suggest other cutbacks.

We have enclosed a sample resolution that your municipality can adopt about making a submission to the Commission, expanding services at the public post office, and the need for more robust public stakeholder consultation. We have also included a document with some suggested themes to consider for your written submission. If you can, please let us know if you plan to participate, pass a resolution, and can send us copies of the materials you submit.

Upcoming Federal Election

We also find ourselves in a period of federal political uncertainty, with the possibility of a federal election only months away. This will raise public discussion and debates on many issues affecting the public and all municipalities.

In all likelihood, it will be the next federal government that will determine what will be done with the Commission's report.

RECEIVED

In the run-up to the federal election, we urge you to question the political parties on their intentions for Canada Post, and insist they make clear their public commitments regarding the following issues:

- Preserving our universal and public postal service;
- Maintaining the moratorium on post office closures;
- Maintaining door-to-door mail delivery; and,
- Establishing postal banking to offset the loss of financial services in many communities.

Thank you very much for considering our request. There's a lot at stake and we appreciate anything you can do to help. CUPW is confident that we can build on our past success and convince the Commission to recommend against service cuts, to maintain good jobs in our communities, expand services that generate additional revenues to keep Canada Post self-sustaining and allow us to build a universal, affordable and green public postal system for future generations.

Canada Post is Under Review through Section 108 of the Canada Labour Code

As you may know, the Minister of Labour, Steven MacKinnon, ordered the resumption of mail service at Canada Post just before the holiday break, ordering CUPW members to return to work under Section 107 of the *Canada Labour Code*. What many do not know is that under Section 108, he also created an Industrial Inquiry Commission lead by William Kaplan that will work with CUPW and Canada Post to examine the future of the public post office with a very broad scope.

It will review Canada Post's financial situation, the possible diversification or alteration of delivery models, Canada Post's viability as it is currently configured, as well as bargaining issues, including full-time employment, health and safety and job security and produce a report not later than May 15, 2025. Accordingly, Kaplan's "recommendations may include amendments to the collective agreement, and any other changes to be implemented, including the structures, rights and responsibilities of the parties in the collective bargaining process."

The Commission is Seeking Input

We have an incredibly short timeline to follow. Hearings will begin January 27 with statements from both CUPW and Canada Post. The good news is that there is an opportunity for third parties to send in a written submission to the Commission as part of its public review. CUPW and Canada Post must have their bilingual submissions in to the commission by end of day Monday, January 20. We do not have a date or mechanism yet for third-party submissions, but it could be very soon. CUPW would like to ensure that the views of community groups, municipalities, allied organizations and labour are also considered. Therefore, if at all possible, we would like you to provide input to the Commission.

Please let us know if you will be making a submission. Please contact Brigitte Klassen at bklassen@cupw-sttp.org, so we can provide you with more details on how to send it to the Commission as soon as we have more information.

As time is of the essence and to help get you started on your submission, here are some suggested themes to consider that are important supplements to CUPW's bargaining demands.

- Keep Canada Post a Public Service
- Maintain universal service at a uniform price
- Expanded services to diversify and generate new revenue streams, no service cuts
 - add financial services
 - maintain the moratorium on post office closures to enable community hubs (meeting spaces, sales of local crafts, community gardens, government services for all levels of government)
 - maintain door-to-door delivery and increase where financially viable
- Major changes to Canada Post should not be made without full public consultation conducted through a mandate review involving all stakeholders

Keep Canada Post a Public Service

The Commission will examine the financial situation at Canada Post. Currently, the Crown Corporation is required only to be self-sufficient. It is completely user-funded and does not rely on taxpayer dollars. Canada Post still tends to prioritize major, high-profit customers over the public and providing a public service. Canada Post must not lose sight of its public interest objectives.

Major changes to Canada Post and the *Canadian Postal Service Charter* should not be made without full public consultation and hearings conducted through a mandate review involving all stakeholders. There is simply not enough time to do this under the Labour Minister's *Canada Labour Code* Section 108 order.

Maintain universal service at a uniform price

There have also been calls in the media and by various think tanks to privatize or deregulate Canada Post with little regard for the impact on public service or working conditions. Though transaction mail has been in decline, there are still over 2 billion letters delivered every year to an increasing number of addresses. Canada Post has an exclusive privilege (a monopoly) to handle letters so that it is able to generate enough money to provide affordable postal service to everyone, no matter where they live, be it a large urban centre or a rural or isolated community. There is no comparison in the world of a deregulated or privatized post office that serves anything near Canada's vast size and geography.

It will become increasingly difficult for our public post office to provide universal postal service if the exclusive privilege is eroded or eliminated. The exclusive privilege funds its universality. If parts of the service are deregulated or privatized, competitors will leave it to Canada Post alone to provide increasingly expensive delivery service to rural and remote communities, while they compete in profitable urban areas.

Providing Canada Post with an exclusive privilege to handle addressed letters is a form of regulation. Reducing or eliminating this privilege is deregulation. We have this regulation for a reason.

Expanded services to diversify and generate new revenue streams, no service cuts

For years, CUPW has been advocating for new and expanded services to help diversify and create new revenue streams as a direct means to handling decline in letter volumes. Many of these services, such as postal banking, already exist in many other post offices around the world and they generate significant revenue. Around the world, more than 1.2 billion people hold postal bank accounts.

Providing new services through the existing corporate retail network ensures that good jobs remain for workers and their families in the communities in which they live.

Financial Services

Given Canada Post's vast retail network, postal banking would offer in-community service for those who are underbanked or who have had their financial institutions close and leave town. Today, there are many rural communities with post offices, but no banks or credit unions. Very few Indigenous communities are served by local bank branches. Hundreds of thousands of low-income Canadians don't have bank

accounts at all, and almost 2 million Canadians rely on predatory payday lenders for basic financial services.

Postal banking is relatively straightforward. Like commercial banks, post offices would provide everyday financial services like chequing and savings accounts, loans and insurance. Postal banking could also be used to deliver government loans, grants and subsidies to boost renewable energy projects and energy-saving retrofits.

In many countries, postal banking is also mandated to provide financial access for all citizens and to play a role in addressing social inequalities. Postal banking could provide reliable financial services that everyone needs at affordable rates.

Community Hubs and Moratorium on Post Office Closures

We have also advocated community hubs (provide government services for all levels of government, meeting space, sales of local crafts, community gardens) and EV charging stations.

One of Canada Post's demands during Negotiations was to have the *flexibility* to close more than 130 of the 493 corporate Retail Post Offices that are protected under the current CUPW-Canada Post Urban Postal Operations collective agreement. These are post offices that are run by Canada Post and are not franchises located inside another host business.

While about three-quarters of these are also covered by an additional 1994 moratorium on closures, for those that are not, they could end up being privatized or disappear altogether if we lose this contract language. Residents may then have to travel further for their postal needs. No franchise host business is going to give up retail space for community hubs, nor parking space for charging stations that generate revenue for Canada Post. Longstanding, good-paying, full-time jobs in our communities could be replaced with low-wage, part-time work.

You can find a list of the post offices under the moratorium and how they are protected here: https://www.tpsgc-pwgsc.gc.ca/examendepostescanada-canadapostreview/rapport-report/bureaux-outlets-eng.html

Senior Check-Ins

We have proposed creating a senior check-in service as well. Senior check-ins could bring peace of mind to loved ones and relatives who don't live nearby. Japan, France and Jersey in the British Isles currently offer effective and successful senior check-in services through their national postal services. Door-to-door postal workers are already watchful for signs that something isn't quite right. They could be allotted extra time on their routes to simply check in on seniors or people with mobility issues who sign up for the service to make sure everything is okay and deliver peace of mind.

Find out more about our service expansion proposals at https://www.deliveringcommunitypower.ca

Canada Post and the Industrial Inquiry Commission

Whereas the Canada Industrial Relations Board, as instructed by the Federal Minister of Labour, Steven MacKinnon, ordered the end to the postal strike and the resumption of mail service at Canada Post on December 17, 2024, under Section 107 of the *Canada Labour Code*.

Whereas the Federal Minister of Labour, Steven MacKinnon, created an *Industrial Inquiry Commission* under Section 108 of *Canada Labour Code*, led by William Kaplan, that will work with the Canadian Union of Postal Workers (CUPW) and Canada Post to examine the future of the public post office, including possible changes to the *Canadian Postal Service Charter*.

Whereas Canada Post is, first and foremost, a public service.

Whereas the *Commission* has been tasked with reviewing the obstacles to negotiated collective agreements between CUPW and Canada Post, the financial situation of Canada Post, Canada Post's expressed need to diversify and/or alter its delivery models in the face of current business demands, the viability of the business as it is currently configured, CUPW's negotiated commitments to job security, full-time employment, and the need to protect the health and safety of workers.

Whereas the *Commission* only has until May 15, 2025, to submit its final report to the government and make recommendations about the future structure of Canada Post.

Whereas while there is room for written input, the *Commission* process is not widely publicized, nor equivalent to a full and thorough public service review of Canada Post's mandate allowing for all stakeholder input, as has been undertaken by previous governments.

Whereas it will be crucial for the *Commission* to hear our views on key issues, including maintaining Canada Post as a public service, the importance of maintaining the moratorium on post office closures, improving the *Canadian Postal Service Charter*, home mail delivery, parcel delivery, keeping daily delivery, adding postal banking, greening Canada Post, EV charging stations, food delivery, improving delivery to rural, remote and Indigenous communities, and developing services to assist people with disabilities and help older Canadians to remain in their homes for as long as possible – and at the same time, helping to ensure Canada Post's financial self-sustainability.

Therefore, be it resolved that (name of municipality) provide input to the *Commission* in the form of a written submission.

Therefore, be it resolved that (name of municipality) will write the Federal Minister of Labour, Steven MacKinnon, and the Federal Minister of Public Services and Procurement of Canada, Jean-Yves Duclos, who is responsible for Canada Post, to demand that no changes be made to the *Canada Post Corporation Act*, Canada Post's mandate or the *Canadian Postal Service Charter* without a full, thorough, public review of Canada Post, including public hearings, with all key stakeholders, in every region of Canada.

Dear Mayor Nancy Paquette:

RE: Deadline for Submissions to the Industrial Inquiry Commission Reviewing Canada Post

We are following up from our previous letter about the Industrial Inquiry Commission, under Section 108 of the *Canada Labour Code*, led by William Kaplan. We have included the terms of reference assigned to the Commissioner by Steven MacKinnon, Minister of Labour, on the reverse side of this letter. We have received further information from the Commissioner about the deadline for submissions as follows:

Your submissions will be shared with both Canada Post and the Canadian Union of Postal Workers and will be reviewed as part of the Commission process.

If you would like to make submissions, please do so by February 14, 2025, and send them to: edsc.cdi-iic.esdc@labour-travail.gc.ca *

In our previous letter, we enclosed a sample resolution that your municipality can adopt about making a submission to the Commission, expanding services at the public post office, and the need for more robust public stakeholder consultation. We also included a backgrounder with some suggested points to consider. If you can, please let us know if you plan to participate, pass a resolution, and can send us copies of the materials you submit.

We feel it is vital to maintain good jobs in all communities, expand services to generate new revenue, and to ensure that Canada Post stays universal, public and self-sustaining – now and for future generations. Thank you once again for considering our request. We appreciate anything you can do to help, especially given the very short time frame. Sincerely,

Jan Simpson
